Personal Profile

Computer Science graduate with practical experience in Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI agents, and intelligent application development. Skilled in Python, back-end development, RESTful APIs, databases, and building scalable AI-driven solutions with strong analytical and problem-solving abilities.

Education

2021 – 2025: Bachelor of Technology (B.Tech) – Computer Science Engineering
Sharda University, G.Noida, Uttarpradesh

2020 - 2021: Senior Secondary (Class 12)
St. Michael's Academy, Bettiah,Bihar

2018 - 2019: Secondary (Class 10)
Assembly Of God Church School Bettiah,Bihar

Experience

Mar2026 – Present: Project Engineer
Wipro Ltd.

- Worked with Python, Generative AI, Large Language Models (LLMs), and REST APIs to support the development of AI-driven solutions.
- Applied prompt engineering, Retrieval-Augmented Generation (RAG), and vector databases to build intelligent and context-aware applications.
- Utilized cloud-based AI services to integrate AI capabilities into enterprise applications and workflows.
- Collaborated with teams to design, develop, and enhance AI-powered features and automation solutions.
- Contributed to the implementation of scalable and efficient AI applications using modern AI technologies and frameworks.

Dec 2025 – Feb 2026: .NET Development
Wipro Pre-Skilling Training

- Gained hands-on experience in CSharp, ASP.NET MVC, ASP.NET Core, Entity Framework, ADO.NET, and Web API development.
- Developed web applications using MVC architecture, Controllers, Models, Views, and database integration.
- Implemented CRUD operations, authentication, and data access using SQL Server and Entity Framework.
- Learned with Docker for containerization, Azure cloud services for deployment, and modern software development practices.

Project

Intelligent Loan Advisor and Policy Assistant
Capstone Project

- Built a Banking GenAI application using RAG, FastAPI, Streamlit, and Vector Databases to answer loan policy and product-related queries.
- Implemented document retrieval, source citation, and loan eligibility verification workflows using synthetic banking data
- Collaborated with cross-functional team members using GitHub, Docker, and API-based architecture following software engineering best practices.

Skills

- Programming Languages: Python,CSharp,JavaScript
- Tools and Platforms: ASP.NET Core, ASP.NET MVC, Entity Framework,Python, Generative AI, OpenAI, Azure

OpenAI, LangChain, LangGraph, RAG,Docker, Git .
- Languages: English,Hindi,Urdu

Certifications

- Silver Medal in Education for Sustainable Development – NPTEL
- Certified in Enhancing Soft Skills and Personality – NPTEL.
- Completed Certification in Java Foundation - Oracle
- Certified in Devlop Solution for Azure - Microsoft
- Completed Kaggle Certifications in Pandas,Intermidiate Machine Learning,Intro to Deep Learning.
